Adjutant's Report - March 2025

Greetings Marine Corps League of Pennsylvania!

I have seen first hand some success in using scholarships and Toys for Tots participation as a **recruiting** tool. Feel free to reach out to me on those details specifically. This is a great way to encourage and motivate the younger generations to step up and join.

I want to thank Jacob Bertin for stepping up as the Division Compliance Officer. We as a Department have some work to do with **ROI's**. Please use the most current version by looking at the bottom of the ROI form and making sure it says 2023 Marine Corps League (not prior years). I prefer accepting ROI's electronically because it is faster and National accepts them this way, I can easily make corrections and keep it moving. Pay attention to the Detachment Renewal Dues section at the bottom of the ROI, and this is why it is important to use the most current ROI version. That amount is only the dollar amount your specific Detachment keeps of the total renewal amount. Do not put the total renewal amount or your ROI will be delayed being sent to National. Finally please double and triple check the Detachment information at the top and make sure Profile ID #s are correct. I also see many email addresses for Officers on ROI's that are not accurate.

Thank you all for submitting your **quarterly reports**, many came in on time this year which is an improvement. Please make sure to send your written reports in PDF form for those of you who do that, and Detachment Commandant's please use the correct fillable report.

I am excited and thankful to be in our third quarter of 2025 as we get closer to the Department Convention and enter warmer months for more outreach opportunities. Thank you all for your hard work and for setting a great example and keeping up a great reputation for our Marine Corps League.

Semper Fi!
Sarah Cook, Adjutant, Marine Corps League of Pennsylvania
