Since the Mid-Year Report, we have had additional participants added. The program went from 14 to 22 Detachments since January 2025. A 57.14% increase. Since August 2023 with 8 Detachments participating, the program has increased overall by 175%. The goal for this year was 17% Participation. We exceeded that goal by 105%, more than doubling our target. We currently have 34.92% Detachment participation.

I want to thank the Detachments for all of their hard work.

Respectfully Submitted,

Jacob A. Bertin
